REMARKS/ARGUMENTS

On March 25, 2005, the U.S. Patent and Trademark Office issued a Communication indicating that the Amendment filed on February 4, 2005 in response to the November 4, 2004 Office Action was not fully responsive because there was no answer to the objection to the drawing figure for failing to show conventional names for the elements.

In response, enclosed herein is an amended figure with the appropriate names, as used in the specification, shown for the corresponding elements. In particular in the amended figure the names for elements 3, 4, 7, 9 and 11 can be found in paragraph 22 of the specification; the names for elements 1 and 9 can be found in paragraph 24; the name for element 5 can be found in paragraph 25; the names for elements 13 and 15 can be found in paragraph 26; and the name for element 29 can be found in paragraph 29. No new matter has been added.

If the Examiner has further questions and/or concerns with regard to this submission, the Examiner is welcome to contact the undersigned attorney to address such questions and/or concerns.

CONCLUSION

In view of the amendments and remarks made above, it is respectfully submitted that all pending claims are in condition for allowance, and such action is respectfully solicited.
